Moreton Bay Technology

keeping your spending in check

Moreton Bay Technology's (MBT) sole purpose is to provide tools and services that enable an organization to control spend and reduce cost.

For twenty years MBT has been developing its Check branded *purchasing, expenditure control, inventory management* and *food & beverage cost control* solutions for the hospitality industry.

Clients

Check is in use in over 55 countries in all 6 continents by the following types of business: hotels, catering, restaurants, café, casino, convention centre, sports stadium, cruise liner and airport. We work with well known brands including ACCOR, Intercontinental, Delaware North, SSP, Rosewood, Hilton, Shangri-La to name a few.

Flexible Options

Check SCM is a web-based solution designed for multi-business unit organizations whilst Check EAM is a single business unit solution. We offer our solutions licensed, leased or Software as a Service (SaaS).

A Global Solution and Delivery

Through a channel partner network of over 20 throughout the world and our own network of staff and offices, we deliver implementation, consultation, project management, training and technical support to all parts of the globe. Check solutions are globally ready supporting various language requirements (single, double-byte), multi-currency and complex taxes.

Origin and Head Office

Founded in Sydney, Australia in 1990, Moreton Bay Technology specializes exclusively in delivering material management solutions to the global hospitality industry, particularly areas directly impacting food and beverage profits such as inventory, receiving, purchasing, recipe costing, menu analysis, and usage control. Moreton Bay Technology is able to combine innovation and technology with industry best practice in the most comprehensive Supply Chain Management system that delivers the competitive edge your business is looking for.
